

SLINGS & BIPODS...

Spec-Ops Mamba

Combat Sling for

Telestocked M4 & other Carbines

(100240101) \$39.95... The first sling designed for full contact engagement - for either left or right handed shooters, this quality USA made product offers fast and easy transitions with a "tensioned triangle" design to eliminate interference with body-mounted load bearing equipment. It's tubular web construction is super strong, and twist and tangle-free. Compatible with SOPMOD components, the Mamba's static-side "traverse" strap prevents the sling from tangling in weapons mounted sighting or lighting systems. The Mamba does not use any metal snap clips, velcro or other noise-making hardware.

Smarter - Stronger - Better!

100% Made in the USA

Guaranteed for Life!

Mamba Combat Sling for Fixed Stock

Rifles (100240201) \$39.95...

Designed with a custom positioning "Speed-Lok" feature, the Spec-Ops Mamba Slings allow the wearer to balance and position the weapon according to situational requirements. A unique stretch section built into the sling allows the user to strike an opponent with the weapon's muzzle ("barrel thump") while still keeping the weapon slung and in ready position. Adjusting buckles allow "pre-setting" the sling for operator's body size.

The "Mamba" Power Strike Zone

Also available: The Spec-Ops Universal Mamba Sling (100240501) \$49.95... for ambidextrous mounting to either carbines or full stocked rifles - with all the Spec-Ops Mamba features described above.

And, The Master Blaster Combat Sling (100300101) \$29.95... Designed for combat shotguns and tactical rifles, this sling features two adjustments for quick transitions & body sizing, and quality tubular web construction.

Turner Saddlery Leather Competition Sling... (TS-NMPTRS) \$49.95

This National Match Police Tactical Rifle Sling is premium quality, black, 11 oz. strap leather - 54" in length with numbered holes. Fitted with Mil Spec Parkerized steel hardware and copper rivets, and the short strap is stitched with bonded nylon thread to resist rot. Keepers are 7/8" wide and hand stitched. More and more U.S. Military and civilian shooters are competing with the M16 and AR-15 "Black Rifles" in the high power matches, and this is the sling they choose!

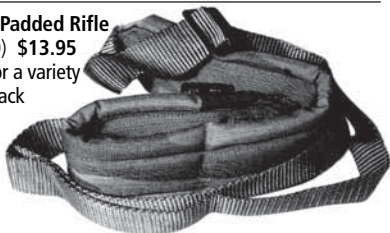

Tactical "Silent Sling" for Carbon 15 Rifles and others... (AZ723) \$41.95 As supplied on the Carbon 15 975 Rifle, this quality tactical sling will fit any other Bushmaster Carbon 15 Rifle and can be adaptable to various other firearms as well. This sling offers multiple carry modes, and is sewn of durable, black ballistic nylon with easy Velcro strap attachment mechanisms.

1 1/4" Wide Padded Rifle Sling... (AS-60) \$13.95

For AR15/M16, or a variety of other rifles. Black webbing with a comfortable shoulder pad, and two black metal buckles.

Gov't. Issue Sling... \$5.50 (12624561) A 1 1/4" wide black nylon web sling - 54" long, with two black metal buckles.

SLINGS & BIPODS...

Button Sling Double Bungee "Throw & Go" Single Point Tactical Carbine Sling... (TGPT) **\$39.95** High quality black nylon tubing with internal bungee cords make this sling uniquely adaptable to Tactical situations. The sling attaches to the rifle with the "Button" endplate shown at right, and offers length adjustment, comfort and instant readiness.

For the right handed shooter, order:

(M4-M16) **\$19.95**

For the lefty, order:

(M4L-M16) **\$19.95**

Quake Industries "Claw" Non-Slip Sling... (51000-0) **\$38.95**

This high quality sling is sewn with 1" wide black webbing and includes a flexible, molded rubber shoulder pad that offers silence, comfort and won't slip or roll off your shoulder. This is a "universal" design sling – adaptable to many different rifles.

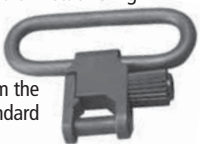

Bushmaster Modular Accessory System Bipod Adapter... (YHM-638) **\$31.95** This attachment will adapt Harris (or other) bipods to the B.M.A.S. Triple Mount or other accessory rail segments. Machined from Aircraft Aluminum – then black anodized to a mil. spec. finish – with steel bipod stud. Mounts to any Picatinny or Weaver type rail.

Bushmaster Modular Accessory System Rail Sling Mount... (YHM-9485S) **\$24.50** Attach a sling to any accessory rail (Picatinny or Weaver type) with this B.M.A.S. Rail Sling Mount. It clamps onto a rail system or forend rail segment, and locks down with one button head Allen screw – includes the swiveling sling stud below mounted on an anodized aluminum base.

Quick Detach Sling Swivels... (KNS-4) **\$12.95 per pair.** These 1 1/4" Loop Quick Detach Sling Swivels are heavy steel with a phosphate finish and a screw locking knob to ensure that the sling won't work loose from the rifle. Fits any firearms with standard sling swivel studs installed.

First Samco Equipment Mount for Rails... (FBS-BP1) **\$31.99** Mounts to any Picatinny or Weaver type rail with a push button lock mechanism. Molded of high density black polymer with a standard stud for sling or bipod mounting.

Bushmaster Modular Accessory System Swivel Sling Stud... (YHM-9469) **\$4.75** Fits our Four-Rail Forearms and other B.M.A.S. accessories to provide a sling attachment point that won't deflect the barrel when the sling is pulled tight. Rotates 360° – machined steel with black phosphate finish – threaded 5/16 x 32. Use with any standard Q.D. sling loop.

Bushmaster Sling/Bipod Stud... (B-0807) **\$5.95** This universal bipod mounting stud will mount any standard, Quick Detach type sling swivel. 3/8" shaft is threaded 10/32 - use a #21 drill bit before tapping. We use these on our Varminter models.

A2 Buttstock Sling Stud... **\$14.95** (KNS-5) This phosphate finished steel stud replaces the old rear sling loop on standard A2 solid buttstocks. Unscrew the lower screw in the buttplate, then slip this in the loop cavity and replace the screw. Accepts any standard Quick Detach type sling swivel.

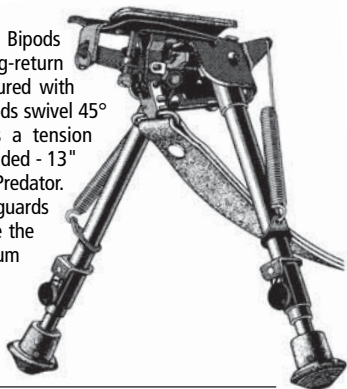

SLINGS & BIPODS...

Harris Ultralight Bipods... Versatile, sturdy, light, and fast - Harris Bipods are real quality. Folding legs have completely adjustable spring-return extensions. The sling swivel attaches to the clamp. Quality manufactured with heat treated steel and hard alloys - all black anodized finish. These bipods swivel 45° for instant leveling on uneven ground, and the hinged base has a tension adjustment and buffer springs to eliminate looseness. Leg Length: Extended - 13" / Retracted - 9". Harris Model L will mount directly onto Varminters & Predator. V Match rifles require installation of Sling Bipod Stud. Ribbed AR Handguards require the HE-001 adaptor below. For mounting to accessory rails, use the Samco FBS-BP1 or our Bushmaster Modular Accessories System Aluminum Bipod Adapter (YHM-638).

Harris Model L – for XM15/AR15/M16 & others (as shown)...

(HE-002) **\$118.95**

Harris Bipod Adapter for AR15 Handguards... (HE-001) **\$14.95**

Steel Side-Sling Adapter... (12598617K) **\$34.95** This adapter - the same as used in the original M203 grenade launcher kit - allows mounting a sling to the side of the barrel for easier ready position carry. Machined from gun steel, it is adaptable to both standard (.625" diam.) and heavy barrels (.750" diam.) by flipping the double concave lock plate when installing.

Sling Mount Loops... For vertical carry mounting of various slings, the front loop mounts onto the sight assembly. For buttstock application, attach the loop onto the stock's rear sling loop. Phosphate finished, heavy spring steel wire.

Front & Rear Set - 2 Loops... (2698877K) **\$8.50**
or, Sold Individually... (2698877) **\$5.50 each**

Bushmaster Modular Accessories System Front Sling Mount & Accessory Rail... (YHM-9574) **\$78.50** Designed to clamp into the standard AR Front Sight, this mount combines a sling stud and Picatinny rail section for attachment of flashlight or laser accessories. Two discs fit into the sight, lock together with Allen head screws, then the rail screws into those and is oriented by means of the large knurled nut.

Anodized aluminum with steel screws and stud.

Shown installed and separately.

Bushmaster Modular Accessories System Front Sight Sling Mount... (YHM-9468) **\$31.95**

This Bushmaster Modular Accessories System Sling Mount installs easily (with three Allen Screws) to position the sling along the side of the front sight for a comfortable carry – shown separately and installed. It includes a swiveling stud which accepts standard quick detach sling mounts.

Shown installed and separately.

Bushmaster Modular Accessories System Tactical Sling Adapter... (1005-914-2942-T) **\$14.95**

A Tactical Sling Adapter made for attaching various types of slings - allows mounting either web type slings or those that have "lobster claw" type clips. This phosphate finished steel adapter plate replaces your telestock receiver end plate, and allows ambi sling mounting on the primary, or offside shoulder position for a comfortable "tactical" carry. Removal of the stock and receiver extension is necessary for installation of this adapter (don't lose the Takedown Detent & Spring when removing the existing endplate).
