100% AMERICAN DESIGNED.
100% AMERICAN BUILT.
100% GUARANTEED.
100% BUSHMASTER.®**

Driven by the spirit of innovation that began over 50 years ago, the Bushmaster® name is one of quality, craftsmanship, and a legacy of fine American made firearms. Bushmaster®, today, has brought back the quality and reliability that the original Bushmaster® brand provided in 1973.

We are dedicated to the quality of our products and offer a limited lifetime warranty for all Bushmaster® firearms.

This limited lifetime warranty is applicable to all firearms manufactured in Carson City NV.

We strive to bring new products to market, continuing new innovations, and keeping up with today's changing technology. This dedication to quality and performance is why Bushmaster® is and has always been America's Rifle, whether in the field or on the range.

THE BUSHMASTER® V-RADICATOR™

CHAMBERED IN .223 WYLDE

**VARMINTS, COYOTES AND GROUNDHOGS HAVE MET
THEIR MATCH WITH OUR NEW BUSHMASTER® RIFLE.**

Introducing the ultimate companion for any varmint hunter, the .223 Wylde V-Radicator™ Rifle Series. Crafted with the dedicated varmint hunter in mind, the V-Radicator™ series is optimized to deliver accurate hits on small game and varmints at long ranges. The .223 Wylde chambering allows the flexibility to utilize 5.56 NATO or .223 Remington ammunition to achieve unparalleled accuracy and reliability. With offerings in an 18", 20", and 24" 416R Stainless Steel fluted barrel, the V-Radicator™ rifle series has the right option for every small game and varmint hunter. The V-Radicator™ series also comes equipped with a stainless-steel thread protector, making installation of your favorite muzzle device or suppressor simple. Outfitted with Magpul's® MOE® K2-XL grip and PR™ Carbine Stock, this new series of rifles creates a pleasant shooting experience that will last for hours on end. Whether you're shooting Prairie Dogs from a bench in South Dakota, or calling in Yotes in the Texas Panhandle, you can depend upon the V-Radicator™ series to deliver, time and time again.

THE BUSHMASTER[®] A2 SERIES.

RETRO RIFLES REDEFINED.

Created in the tradition of the original Bushmaster[®] rifles, the A2 Rifle series was built as a modern tribute to Bushmaster's[®] 50th Anniversary.

Reminding you of a time when things were simple, back when the standard was iron sights and fixed carry handles. With phosphate-finished, chrome-lined barrels, and bolt carriers to rival the durability of the Windham, Maine originals.

The Bushmaster[®] A2 series is expertly forged to commemorate the brand's legacy and revive the style of the early AR platforms.

A black ORC II rifle is shown standing upright on a gravel surface. The rifle is positioned vertically, leaning against a wooden fence made of horizontal logs. The background features a large, grey, textured wall, possibly a dam or a retaining wall, under a clear blue sky. The rifle has a long barrel with a scope mounted on top, a magazine, and a stock. The text "ORC II" is printed in white on the lower left side of the image.

A man and a woman are standing outdoors in a rural setting, holding Binary rifles. The woman on the left is wearing a blue quilted jacket and dark pants, holding a rifle with a tan and black finish. The man on the right is wearing a dark green and black quilted jacket and blue jeans, holding a rifle with a black and green finish. They are standing in front of a wooden fence, with snow-capped mountains in the background under a clear blue sky.

CALIFORNIA COMPLIANT RIFLES.

OUR LEGAL AR15 PLATFORM FOR THE CALIFORNIA SPORTSMAN.

“What makes this rifle California-compliant?”

Bushmaster® has created variations on our most popular firearms, meeting California Firearms Laws. Every California Compliant Bushmaster® is equipped with a DFM® 10-RD magazine, and the lower receiver model is XM15-CA™.

Additionally, every rifle shipped to a Federal Firearm Licensed dealer located in California has California DOJ approval.

The DFM® is designed to be used with a magazine catch. This prevents the tabs from resting on the lower receiver. The DFM® can only be loaded from the top when the upper is tilted open.
